Carmen Calero: Astrologer & Tarot Reader

Bio: My human name is Carmen and I serve the Light of God by sharing the wisdom of my Galactic Soul. I have been aware of my relationship with my Higher-Self, Soul, Spirit Guides since I was a child; not fully understanding mechanics of how this was possible or why it was so essential, I let fear and self-doubt take the lead in my life. In my 30's with a life that needed divine intervention and passion for discovering the truth behind the mystery, I surrendered and delved into understanding my interest in Jesus, God, Science, Astrology, and how or why it unites 8 billion people on this planet. Who I am is a Light Being, here for the collective ascension to a higher consciousness of light; the nature of how we exist is via vibration and frequency, the physical timelines of our reality are an effect we each create individually and collectively because of the Light we (sub) consciously align and allow through us. As a Galactic Ascension Astrologer, I inspire individuals to rediscover their Soul Self, aiding in the remembrance, interconnectedness and divine energetic abilities of their eternal Soul and the Light of God that desires to influence and create miracles through them.
